# Our personal experience

---

- Our experience was very beautiful in Slovakia because here we could see how nature works its magic.
- During our journey from Romania to Slovakia, we were able to see several towns and villages that looked familiar, but at the same time were different.
- Slovaks were very hospitable to us, helping us in understanding their culture.
- They have very tasty traditional food.

# Day I

---

- On the first day we visited the school in Spiska Nova Ves where we were given a tour of it. Then we played several games on the Kahoot platform that helped both teams to understand our countries and cultures.
- During the afternoon we visited the church with a clock tower, which is the symbol of the city.

# Day II

---

- On the second day, we could observe the Tatra Mountains closer, seeing them in all their splendor. At their base, many ski slopes could also be observed.
- It is the perfect place where you can get rid of stress and relax.

# Day III

- On the third day we visited Spis Castle which is located on top of a hill to be able to observe the surrounding areas and after lunch we visited the town of Drevnik which is surrounded by defensive walls and you can feel like in the middle ages when you are in the center.

# Day IV

---

- On the fourth day, we visited the Tatra Mountains National Park, which amazed us with its splendor and untouched nature. From this park you could also see a valley that stretched for several kilometers.

# Day V

- On the fifth day we returned to school where we organized a fashion show together with our Slovak friends where we combined our traditional costumes with ordinary clothes that were designed to represent different materials that surround us.
